

Transform your phone system into a cost-cutting, patient-driving machine.

Practice Cloud VoiceSM provides an enterprise-grade VoIP phone system. Delivered from the cloud, it keeps pace with your growth—and propels your business higher.

**Practice Cloud
VoiceSM**

Rich, enterprise-grade calling features

A powerful web-based control panel

Simple management & scaling

Flat monthly rates cut capital costs. No PBX Hardware

Free support included during regular office hours.

Practice Cloud VoiceSM is a complete business communications system and service. With over 40 calling features, Practice Cloud VoiceSM delivers Fortune 500 style capabilities to small and mid-sized practices and groups. This powerful cloud-based phone system uses a practice's existing data connection and wiring. Best of all, onsite PBX hardware is not required.

Over 40 calling features let you perform like a big business

- **Automated attendant** answers and routes every call
- **Hunt groups** ring multiple people at once to help ensure no call goes unanswered
- Use **Outlook** to make calls from your desk phone
- **Unlimited calling** in the U.S.
- Conferencing, call forwarding, music-on-hold (see "Features" section for full list)

Mobility lets you do your job from any location

- **Follow Me** automatically forwards calls to mobile phones and other numbers, or rings multiple numbers at the same time
- Voicemail-to-email helps ensure messages get through faster
- Forward and manage faxes and voicemails just like email messages

Preserve capital, simplify management

- Flat per-user monthly pricing cuts capital investment
- No phone system hardware or software to buy
- No wiring to install. Uses your existing data wiring and Internet connection
- Web-based management tool makes moves, adds and changes simple
